Triple Canopy Iraq Capabilities Overview

A leading provider of mission support, security and training services, Triple Canopy has built a solid reputation supporting government agencies and multinational corporations worldwide. We deliver comprehensive solutions to help clients mitigate risk, ensure business continuity and ultimately, achieve organizational objectives.

Built on a foundation of legal, moral and ethical values, our company is committed to the highest standards of accountability, compliance and quality. Since our inception, we have helped set the standard throughout the industry with our stringent training and exacting code of ethics. As a founder signatory of the International Code of Conduct, we are fully compliant with government regulations, industry protocols and international law. Triple Canopy is also ISO 9001:2008-certified and is currently integrating the new Private Security Contractor Standards (PSC.1-2012) into our existing ISO Quality Management System.

Corporate social responsibility is a way of doing business at Triple Canopy and we always conduct business with proper respect for basic human rights principles. Together with our employees, we strive to enhance the lives of people in the places we serve through employee volunteerism and philanthropic contributions.
At Triple Canopy, we offer a full range of mission support, security and training services to deliver a complete program management solution. Backed by a global network of vetted partners, we bring the operational experience and specialized expertise needed to manage a wide array of complex programs. Our success is measurable and defined by the people we work with, as well as the administrative best practices and strong metrics associated with each unique task. We take the time to understand your requirements and working environment, and tailor our strategy to fit your needs.

Mission Support

Triple Canopy offers a rapid response capability that supports its customers’ critical mission objectives in multiple locations around the world. This includes a full range of mission support services such as global training programs infrastructure; transportation services; supply chain management; security situational analysis; special operations mission support and personnel; and fully integrated life support.

From recruiting and vetting to training and deployment, we specialize in mobilizing and managing large numbers of personnel. Additionally, we are experts in managing the movement of goods in compliance with government regulations in high-risk and emerging markets. As a result, we are able to meet short customer deadlines for procurement, warehousing, freight forwarding and transportation. Our teams can also be rapidly deployed to set up full logistics systems including equipment, food, water, shelter, transportation and communications.

Security

We offer comprehensive security services designed to protect personnel, infrastructure and other critical assets around the world. Our integrated security solutions include mobile and fixed-site protection, community engagement plans, security situational analysis, security technology integration, vulnerability assessments and operation centers management. Our protective security specialists detect, deter and respond to
a wide variety of security challenges in accordance with local and international laws. They comprise a mix of expatriates, third-country and local nationals as warranted by contractual and government regulations. In addition to one of the most rigorous pre-employment vetting processes in the industry, all of our candidates are required to pass an intensive training program prior to deploying on a security assignment.

We supplement our security services with a comprehensive on-site analysis of a client’s facilities’ current physical security conditions, including an evaluation of security staff, badging, procedures, communications capabilities, emergency action plans, command centers and training programs. The resulting report documents the efficiencies of security measures and recommends cost-effective solutions for mitigating and eliminating risks.

Training
Triple Canopy develops and implements comprehensive training programs for government agencies, law enforcement organizations, first responders, private security personnel and multinational corporations. Our experienced instructors and recognized programs of instruction enable us to quickly implement and sustain training programs of any scale, in most regions of the world. We work with organizations to create and maintain a robust training program tailored to meet their distinct needs. Our trainers are subject matter experts with extensive experience in a variety of tactics to include protective services, defensive driving, marksmanship and self-defense. They have provided training to several thousand students in multiple countries in support of government and commercial clients.

Our students benefit from a multi-faceted learning environment consisting of classroom training, scenario-based exercises and practical applications. Triple Canopy’s training services are cost-effective, ISO 9001:2008-certified and comply with International Traffic in Arms Regulations (ITAR). Additionally, we can train an organization at a central facility or send a mobile training team to a client’s location. In the United States, we utilize a 1500-acre training facility with both on and off-road driving tracks, classrooms, weapons support and testing ranges as well as a housing and dining campus.
Partner With the Best

Our program management and security consulting expertise is strengthened by unmatched operational execution. Triple Canopy protective security specialists are quiet professionals experienced in low-profile, high-level asset protection to include presidential and ambassador-level details, counterterrorism, special operations, training, security strategy, risk assessments, situational analysis, medical preparedness and high-risk, crisis management.

At Triple Canopy, customer safety and service always take precedence. Our program managers oversee projects in multiple locations while managing day-to-day protective security details and operations. All security personnel are armed with first-rate personal protective and communications gear. Vehicles are outfitted with emergency equipment, communication devices and emergency medical kits.

Experience
- Completed more than 50,000 high-threat mobile protective security operations in Iraq, Afghanistan and other locations
- Provided more than one million man hours of fixed-site security force protection
- Trained more than 68,000 personnel supporting diplomatic, mobile, static security and law enforcement programs
- Trained, deployed and managed thousands of personnel in multiple countries worldwide

History
Founded in the United States in 2003 by U.S. Army Special Forces veterans, Triple Canopy established operations in Iraq in 2004 following the first of multiple contract awards in the region. Since then, we have experienced significant growth and today, the company represents client interests worldwide. With thousands of personnel located around the world, more than sixty percent of our employee base is comprised of former military personnel. We take pride in our rapid response capability and one of the best safety records in the industry – having supported hundreds of critical missions in demanding locations.
Since 2004, Triple Canopy has provided an extensive portfolio of mission support and security services throughout Iraq. From executive protection and incident response to life support and logistics, we offer fully integrated, comprehensive services that are specifically tailored to meet customer needs. Triple Canopy is fully compliant with Iraqi laws and is a registered and licensed private security company with both the Central Government and Kurdistan.
