Supporting Peace Operations in Africa
Stability, Support and Capacity Building

Terrorism, ethnic violence and inter-state conflicts are ongoing threats in Sub-Saharan Africa. Triple Canopy offers comprehensive services to assist African partner nations in developing their own capacity for conflict-resolution. Together, we can advance regional goals of stability, security, good governance and growth.

Triple Canopy is a trusted provider of mission support and training services to government and multinational clients around the world. We understand the complexities of promoting stability and developing local capabilities in Africa. By leveraging our core strengths, together with a strategic network of local and international partners, we can offer training, advisory, logistics and construction services to organizations operating throughout Africa. Additionally, Triple Canopy delivers the comprehensive program management, client focus and quality solutions needed to effectively run a wide range of capacity building, peacekeeping and mission support projects.

Triple Canopy and its strategic network of local partners support capacity building and peace operations across Africa.
Training and Advisory
Triple Canopy has developed and conducted comprehensive training programs for government agencies, law enforcement organizations, military units, first responders and multinational corporations worldwide. Over the past decade, we have trained more than 68,000 personnel, including thousands of African nationals, in support of stability and security programs around the world. Triple Canopy’s training services are ISO 9001:2008-certified and have set the industry benchmark for quality and safety.

At Triple Canopy, we provide professional development, training and advisory services. Additionally, as a legal, ethical and moral company, respect for rule of law and human rights is an essential piece of Triple Canopy’s training philosophy and program.

Logistics and Supply Chain
We understand what it takes to operate safely and efficiently in remote, challenging locations and offer a rapid-response, logistics support capability to meet our customers’ critical program objectives across Africa.

With extensive project management expertise and a network of partners and vendors across Africa, our capabilities include quality assurance, program planning and implementation, infrastructure and engineering services, logistics and supply chain management, intelligence and analysis, fully integrated life support and special operations mission support. Furthermore, our experienced personnel can rapidly deploy to set up comprehensive logistics systems including equipment, food, water, shelter, transportation and communications.

Triple Canopy manages overseas logistics operations in compliance with International Traffic in Arms Regulations (ITAR) and other U.S. export control requirements. We offer an ISO 9001:2008-certified logistics management process, certified property professionals, a DCMA-approved property management system and vetted supply channels based in multiple locations across West, Central and East Africa.

Construction and Life Support
Triple Canopy provides construction and life support services to ensure your projects are completed efficiently, professionally and to client specifications. We have sourced land, constructed man-camps and built information technology and communications systems for our clients all while providing turnkey logistics and life support, for up to 1,900 personnel in a single location. Additionally, we have built and managed medical clinics, vehicle maintenance facilities, operations centers and provided intelligence personnel, all of which support our comprehensive life support and logistics solutions.
