

TRIPLE CANOPY

Secure Success.

SAFETY ACT. PROTECTION

To encourage the development and utilization of anti-terrorism products and services, the U.S. government passed the SAFETY Act (Support Anti-Terrorism by Fostering Effective Technologies Act of 2002).

The SAFETY Act is perhaps the most significant piece of tort reform legislation ever enacted. It promotes the development of effective anti-terrorism products, services and technologies by protecting certified companies and their customers from liability should a terrorist act occur. This protection applies to qualified anti-terrorism technologies and services that are sold to both government and commercial enterprises.

Benefits

Triple Canopy's security assessment services have earned certification and designation as a qualified anti-terrorism technology (QATT) under the SAFETY Act.

- Gain significant liability protections by utilizing Triple Canopy's SAFETY Act-certified services.
- Rely on assessment services certified by the Department of Homeland Security as meeting SAFETY Act requirements.

Count on Triple Canopy

- An integrated security solutions company, Triple Canopy identifies physical and operational vulnerabilities at government and commercial facilities, including critical infrastructure, and recommends mitigation by developing a comprehensive security plan.
- From vulnerability assessments to security surveys to red teams, our security analysis and planning services have met the requirements of the SAFETY Act's rigorous certification procedure.

SAFETY Act Designated and Certified Services

Vulnerability Assessments

By inventorying assets that need to be protected and documenting the spectrum of viable threats, we can help you develop a new security plan or update an existing strategy.

Security Surveys

We will work with you to determine the state of your site's security, locate weaknesses, establish the degree of protection required and provide recommendations for implementing a comprehensive security program.

Red Teams

Our security specialists will help you identify security risks and develop a course of training to correct identified threats or exposures by running a "red" or adversary team scenario.

About Triple Canopy

Triple Canopy is an integrated security solutions company that mitigates risk and develops comprehensive security programs for government agencies, private corporations and non-governmental organizations across the globe. Our assessments, training, crisis management, protective and support services help customers create and sustain secure business environments. Organizations trust Triple Canopy to protect their people, critical infrastructure and other high-value assets. Our specialists will develop a security program that is tailored specifically to fit your needs. We want to make sure you have the tools, resources and guidance necessary to grow your business and secure your future. Triple Canopy is ISO 9001:2008 certified and our security assessment services have earned certification and designation under the SAFETY Act.
