TRIPLE CANOPY
Secure Success.

Post-conflict reconstruction efforts in Iraq present a unique security challenge for governments, multinational corporations and non-governmental organizations (NGOs) working to rebuild the country's economy and improve the quality of life for Iraqi citizens. Possible insurgent attacks, terrorist operations and internal strife present dangerous working conditions for organizations operating within Iraq's borders. Safeguarding people and protecting assets while achieving strategic business objectives require fully-integrated security solutions and the right security partner.

Delivering Total Security Solutions

A leading security provider, Triple Canopy provides protective and support services, assessments, training and crisis management consulting to government agencies, corporations and NGOs throughout Iraq. From executive protection and incident response to life support and logistics, Triple Canopy offers innovative, comprehensive security solutions enabling your organization to conduct “business as usual” while operating in Iraq. Our cost-effective services mitigate risk, maximize safety and are specifically tailored to meet individual customer needs. Triple Canopy’s experienced security specialists have safely secured customers and their assets throughout Iraq since 2004. More than just a traditional security provider, Triple Canopy delivers a complete set of services in Iraq, including:

- Convoy escorts
- Armed escorts
- Armored bus airport moves
- Integrated security teams
- Executive protection
- Low profile packages
- Full life support
- Interpreters and translators
- Office and meeting space
- Visa services
- Airport expediting
- Logistics planning
- Procurement services
- Vehicle maintenance
- Armored vehicle leasing
- Guard force training
- Basic weapons training
- Security awareness training

Partner With the Best

Triple Canopy is fully compliant with Iraqi law and is a registered and licensed private security company. Our security specialists are quiet professionals experienced in low-profile, high-level asset protection to include presidential and ambassador-level details, counterterrorism, special operations, training, security strategy, risk assessments, intelligence analysis, medical preparedness and high-risk, crisis management.

Our security teams are comprised of expats, Local National (LN) and Third Country National (TCN) security specialists. Prior to assignment, all personnel must undergo a comprehensive background check, assessment and selection process. After successful completion of this screening, candidates are required to pass a rigorous training program. This process guarantees a consistently high-quality team of security professionals.

Setting the Standard

Triple Canopy has successfully mobilized and managed large numbers of security teams on-site in Iraq. Our program managers oversee projects in multiple locations while managing day-to-day protective security details and operations. All security personnel are armed with first-rate personal protective and communications gear. Vehicles are outfitted with emergency equipment, communication devices and emergency medical kits.

Customer safety and service take precedence at Triple Canopy. We set the standard with stringent training, an exacting code of ethics and strict compliance with government regulations. Our security specialists rely on astute strategy and flawless execution while maintaining the highest levels of integrity. We take the time to understand your security issues and work closely with you to make recommendations or develop solutions that fit your needs.

Services

Assessments

Triple Canopy provides assessment and planning services for public and private enterprises operating in Iraq. We will work closely with your organization to develop a comprehensive security program based on potential physical and operational threats against your personnel and facilities.

Triple Canopy’s vulnerability assessments, security surveys and red team services have earned certification and designation by the U.S. Department of Homeland Security as qualified anti-terrorism technologies (QATT) under the SAFETY Act (Support Anti-terrorism by Fostering Effective Technologies Act of 2002). This SAFETY Act certification provides powerful liability protections to our clients.

Training

Triple Canopy can help you plan, prepare and train your personnel to counter security threats in order to conduct business safely and profitably. We offer a comprehensive set of training modules that enable us to quickly put together programs of instruction tailored to meet your distinct business needs. We employ high-caliber instructors with subject-matter expertise and tactical experience in protective detail and guard force training, marksmanship, anti-terrorism force protection, defensive driving and crisis management techniques.

Crisis Management

Triple Canopy’s crisis management services in Iraq are provided by Clayton Consultants, a crisis management security consultancy offering incident response, security consulting and pre-incident training services to clients across the globe. From the prevention and resolution of kidnaps-for-ransom, wrongful detentions and extortions to executive-level risk briefings, Clayton Consultants supports clients in an advisory capacity based on an intimate knowledge of Iraq’s culture and security situation.

Protective Services

We deliver fixed-site and mobile security services to protect personnel, infrastructure and other critical assets in Iraq. We provide a professionally trained and equipped security force capable of deterring, detecting and responding to a wide variety of security challenges in accordance with Iraqi and international laws. Our protective services also include security design and planning, as well as support services integration.

Security Support Services

Triple Canopy specialists set up comprehensive logistics, communications, transportation and life support systems in Iraq. Our team includes Project Management Institute (PMI)-certified professionals who manage overseas logistics operations in compliance with ITAR (International Traffic in Arms Regulations) and other U.S. export control requirements. We are registered as an international exporter with the U.S. Department of State Directorate of Defense Trade Controls and can export internationally.
