TRIPLE CANOPY

Secure Success.

Safeguarding people and protecting assets while achieving strategic business objectives are a constant challenge for organizations operating in high-threat environments around the world. Corporations, governments and non-governmental organizations must be ready to mitigate risk and protect their employees, critical infrastructure and other property at all times. Comprehensive and intelligent security is the key to survival and demands the expertise of a trusted and experienced security partner.

Experience You Can Trust

Triple Canopy delivers protective services to organizations around the world. We provide professionally trained security experts capable of detecting, deterring and responding to a wide variety of security challenges in accordance with local and international laws. Triple Canopy employs seasoned professionals with decades of experience serving in military special operations, law enforcement and counterterrorism units. Our clients can rest assured that their people are secure, enabling organizations to pursue business as usual even in the most austere environments.

Program Management

We realize that there is no substitute for strong “on the ground” leadership. Triple Canopy has successfully mobilized and managed large numbers of security teams on-site in hostile environments. Our program managers oversee large projects in multiple locations while managing day-to-day protective security details and operations. We rely on astute strategy and flawless execution while maintaining the highest levels of integrity.

Trained Personnel

All Triple Canopy security personnel undergo a comprehensive assessment and selection process. In addition to recruiting security professionals with extensive military, law enforcement and counterterrorism training and experience, Triple Canopy conducts the most rigorous pre-employment vetting in the industry. After successful completion of this screening, candidates are required to pass a demanding, three-week training program. This process guarantees a consistently high-quality team of security professionals.

Setting the Standard

Triple Canopy sets the security standard for the industry with its stringent training regimen, an exacting code of ethics and strict compliance with government regulations. Customer safety and service take precedence at Triple Canopy. Always staying several steps ahead of our adversaries, we use proven techniques and hard-earned expertise to ensure that your people and critical assets receive the best possible protection. We take the time to understand your security issues and work closely with you to make recommendations or develop solutions that fit your needs.

Services

We integrate planning and logistics services to support our fixed-site and mobile security operations.

Fixed-site Security

- Armed and unarmed posts
- Emergency response teams
- Entry control points
- Guard-force training
- Integrated explosive detection dogs
- On-site security development training
- Quick reaction forces
- Reporting procedures
- Roving and escort operations
- Surveillance and counter-surveillance detection programs
- Tactical operations center
- Translators, interpreters and screeners

Mobile Security

- Armored vehicles with communication systems
- Communication plans
- Convoys
- Counter assault teams
- Emergency action plans
- Executive motorcades
- Personal security details
- Point-to-point deliveries
- Quick reaction forces
- Reporting procedures
- Tactical operations center
- Trained drivers

Security Design and Planning

Triple Canopy's fixed-site security services are supplemented with a comprehensive on-site analysis of current physical security conditions, including an evaluation of security staff, badging, procedures, communications capabilities, emergency action plans, command centers and event security training. Our security specialists provide final reports documenting all sufficient and inefficient security measures and recommend cost-effective solutions for mitigating and eliminating risks.

We augment our mobile protective services with highly-trained drivers and armored vehicles equipped with a variety of weapons and communications systems. We supply on-the-ground intelligence and detailed contingency plans that include quick reaction forces for each mission. Tactics for each security detail are based on specific threat conditions. Triple Canopy also provides reaction force training and equipment recovery services.

Support Services Integration

We can rapidly deploy and set up comprehensive logistics systems in high-risk regions in support of our protective operations. Our support services include life-support, procurement, export control, inventory management, maintenance, communications and transportation. Triple Canopy support specialists assist in the planning, execution and tracking of internal and external logistics surrounding our security services. In addition, we ensure that all support services are responsive, cost-effective and compliant with local and international regulations.
